Swing trading is not intraday day trading, moving quickly in and out. It does not involve taking fast-paced breakout trades where you are looking for quick wins. Swing trading is about profiting from the next swing in the market higher or lower. This can take time to play out whether on the smaller or higher time frames.

Swing trading is a trading methodology that seeks to capture a swing (or “one move”) in the markets. The idea is to endure as “little pain” as possible by exiting your trades before the opposing pressure comes in. This means you’ll book your profits before the market reverse and wipe out your gains.
