by Chad M. Remus, a law student at New York University School of Law. Kathryn Sikkink's book, *The Justice Cascade: How Human Rights Prosecutions are Changing World Politics*, provides a personal, historical and empirical account of human rights prosecutions in international politics. As discussed below, its themes have direct and indirect implications for U.S. national security law and policy.

Books Synopsis: The Justice Cascade - Just Security

human rights violations, prosecutions, truth commissions, deterrence effect, diffusion. Abstract. The justice cascade refers to a new global trend of holding political leaders criminally accountable for past human rights violations through domestic and international prosecutions. In just three decades, state leaders have gone from being immune to accountability for their human rights violations to becoming the subjects of highly publicized trials in many countries of the world.
