The Secret Language Of Color

Throughout history, and in most cultures, red was always the first color to be named, after black and white, Blue was one of the very last. The Popular mnemonic ROY-G-BIV, which is meant to stand for the hues of the visible spectrum—red, orange, yellow, green, blue, indigo, and violet—is entirely arbitrary.

The Secret Language of Color

In this beautiful and thorough investigation, The Secret Language of Color celebrates and illuminates the countless ways in which color colors our world. Why is the sky blue, the grass green, a rose red? Most of us have no idea how to answer these questions, nor are we aware that color pervades nearly all aspects of life, from the subatomic realm and the natural world to human culture and ...
