Does anyone know of a good topology textbook, that has a solutions manual for at least some of the problems? Older is fine; I just need to be able to check my own work. I've researched best topology books/free topology books, but most do not have any solutions to problems provided. Thanks for your help; hope I'm posting in right forum.

### Topology textbook with a solution manual

The study of topology and its spaces is an important aspect of mathematics, topological spaces like other mathematical spaces have axioms that must be satisfied for a topological space to hold. Today i will be treating those axioms with solution to exercises from the book "Topology without tears" by Sydney A. Morris.
