In developing nations, city dwellers farm for subsistence, but in the U.S., urban ag is more often driven by capitalism or ideology. The U.S. Department of Agriculture doesn't track numbers of city farmers, but based on demand for its programs that fund education and infrastructure in support of urban-ag projects, and on surveys of urban ag ...

Urban farms now produce 1/5 of the world's food | Greenbiz

Urban agriculture, urban farming, or urban gardening is the practice of cultivating, processing, and distributing food in or around urban areas. Urban agriculture can also involve animal husbandry, aquaculture, agroforestry, urban beekeeping, and horticulture. These activities occur in peri-urban areas as well, and peri-urban agriculture may have different characteristics.

Urban agriculture - Wikipedia

Urban farming can also achieve social benefits: Collectively tending the neighborhood vegetable garden brings people closer together while taking responsibility for their city and public space at the same time. And, not least, our appreciation of food and its quality changes when we integrate production into our immediate surroundings.

Urban Farming - The City as a Pantry

"Fortunately, Thomas J. Fox's Urban Farming: Sustainable City Living in Your Backyard, in Your Community, and in the World is written for grown-ups. It considers politics and history as well as how-to, and informs me that as late as 1860 there were 50,000 hogs in Manhattan.

Urban Farming: Sustainable City Living in Your Backyard ...

To reduce the pressure on the world's productive land and to help assure long-term food security, writes Herbert Girardet, city people are well advised to revive urban or peri-urban agriculture. While large cities will always have to import some food, local food growing is a key component of sustainable urban living.
