The E-Z Bore valve guide installation kit revolutionized the Kart performance industry over 20 years ago. In the early days of building performance flat head engines the only replacement guides and tooling came from Briggs and Stratton, which was fine for the small engine service market, but was lacking in the performance market.

Valve Guide Hone This tool has been a workhorse for many years and still delivers even in today's variety of materials, working in both cast iron and bronze. It works just like a cylinder hone using a traditional vitrified abrasive so you have full control of finish and size. But it's up to you to keep the bore round and straight.
