### Writing Resources - Writing in the Sciences - Hamilton College

Science writing is known for being concise and there is no room in any paper for words, phrases, and sentences that do not contribute anything significant. However, "conciseness" does not necessarily mean "brevity"; this is a common misunderstanding and a better word to have in mind than "brief" is "efficient".

### Writing in Science - Hamilton College

Writing in the Sciences The basic principles of good writing apply just as well to the sciences as they do to the humanities and the social sciences. A science paper should be written in a clear and concise style, its paragraphs should be coherent, and its ideas should be well organized.

### Writing in the Sciences

Writing in the sciences requires elements not necessarily needed when writing in the humanities. It requires data, evidence, facts, and precision, which in turn require intimate attention to detail. The goal of writing in the sciences is to clearly present what you have discovered or what you did.
